- Overall width:** 8.05 m
- Draught:** 1.40 m
- Light displacement:** 15 T
- Max load displacement:** 24 T
- Sail area:** 160 m²
- Engine power:** 2 x 135 ch
- Fuel tank capacity:** 2 x 400 l
- Fresh water capacity:** 1 x 390 l
- Holding tank:** 1 x 300 l
- Deck area:** 74 m²
- Composite construction :** One Shape[®]

An efficient and sustainable boat

The DAY 1[®] 60.14 has outstanding performance with a boosted sail plan: 20m² bigger than standards and a square-top mainsail, combined with a weak displacement.

Those features answer a strong customer's wish for a sustainable boat. We combined our usual eco conception practices with the genset's dismissal in favor of solar panels for better energy management.

As usual with an elegant design :

- A large bimini with a rigid center and flexible fabric wings.
- Outstanding sunbath surfaces including in a large aft platform
- A synthetic teak floor on the main deck

This unit complies with the french "passenger ship" regulations.
